

# ARWA's Water & Wastewater Hybrid Operator Certification Examination Preparatory Training Program

The Alabama Rural Water Association Water and Wastewater Operator Certification Examination Preparatory Training Program has been in place for nearly 50 years. During that time, ARWA has assisted hundreds of individuals in obtaining their State of Alabama water and/or wastewater operator certifications. ARWA has been instrumental over the years in the development process of the Alabama Department of Environmental Management (ADEM) approved operator certification and continuing education hour program.

ARWA employs well-known and respectable instructors with several years of experience in the water and wastewater fields. These instructors bring with them knowledge of the technical and managerial aspects of the water and wastewater industry as well as being certified water and wastewater operators. Each instructor is supplied current and updated information regarding the course materials to be presented.

Individuals must attend 100% of each course for substitution of required experience credit purposes for operator certification. It is the responsibility of everyone attending an ARWA Water or Wastewater Operator Certification Exam Preparatory Training Course to comply with the ADEM Division 10 Regulations as they apply for certification examination and operator certification requirements.

Course Manuals are sold by ARWA separately from the class tuition fee. We recommend that each student or Utility purchase the necessary manuals to help in the exam preparation process.

This will be a hybrid Wastewater certification class ("hybrid" meaning it will be offered online and in person at our office in Montgomery, AL). Students will need access to a computer with internet or transportation to come to our office. Handouts will be provided throughout this course. Attendance will be tracked through the webinar software or sign-in sheets for those attending in person. The instructor(s) will be available outside of the webinar hours to answer questions as well.

**(Deadline for registration is **October 18, 2024**, any registrations after the deadline, may be delayed in receiving books and materials)**

| Course                                     | Start Date       | Location | Start Time | Instructor  |
