

ARWA's Wastewater Operator Certification Examination Preparatory Training Program

The Alabama Rural Water Association Water and Wastewater Operator Certification Examination Preparatory Training Program has been in place for nearly 50 years. During that time, ARWA has assisted hundreds of individuals in obtaining their State of Alabama water and/or wastewater operator certifications. ARWA has been instrumental over the years in the development process of the Alabama Department of Environmental Management (ADEM) approved operator certification and continuing education hour program.

ARWA employs well-known and respectable instructors with several years of experience in the water and wastewater fields. These instructors bring with them knowledge of the technical and managerial aspects of the water and wastewater industry as well as being certified water and wastewater operators. Each instructor is supplied current and updated information regarding the course materials to be presented.

Individuals must attend 100% of each course for substitution of required experience credit purposes for operator certification. It is the responsibility of everyone attending an ARWA Water or Wastewater Operator Certification Exam Preparatory Training Course to comply with the ADEM Division 10 Regulations as they apply for certification examination and operator certification requirements. Course Manuals are sold by ARWA separately from the class tuition fee. We recommend that each student or Utility purchase the necessary manuals to help in the exam preparation process.

Students will need access to a computer with internet, speakers, and microphone (optional but recommended). Handouts will be provided throughout this course. Attendance will be tracked through the webinar software. The instructor(s) will be available outside of the webinar hours, during the work week, to answer questions as well.

(Deadline for registration is February 20, 2025, any registrations after the deadline, may be delayed in receiving books and materials)

Course	Start Date	Location	Start Time	Instructor
Grade I-IV Wastewater 30/45 hour course	February 24, 2025	Online	4:00p.m.	Tyler Grant
