

**Wastewater Treatment Plant  
Operator in Training  
AQUIOM, LLC  
For City of Ashford**

**Description**

AQUIOM, LLC, a subsidiary of CDG Engineers & Associates, Inc. an engineering consulting firm, is seeking applicants for an Operator in Training to assist with operations at the City of Ashford's Wastewater Treatment Plant (0.35 MGD).

The successful candidate will be responsible for the daily operations and maintenance of the facility. Knowledge of process control procedures, lab testing and being able to analyze and perform required operational adjustments to the system as necessary to meet compliance reporting, standards and regulations of the Alabama Department of Environmental Management and the EPA is beneficial

The successful candidate will be expected to obtain licensure as an Alabama Wastewater Operator within 18 months of the date of hire.

**Requirements**

- High school diploma or GED
- Must be familiar with OSHA Safety Requirements.
- Daily inspections of lift stations and wells.
- Ground maintenance of the plant area
- Must have a valid Alabama State driver's license
- Experience and knowledge of wastewater treatment operations is a plus

**Knowledge, Skills and Abilities:**

- Ability to work alternating weekend shifts
- Ability to lift 50 lbs
- Ability to detect and differentiate colors

**Benefits**

The position includes a competitive salary and benefits package. Special consideration will be given for existing experience and Alabama Wastewater Operator licensure.

**Applicant Information**

Pre-employment drug testing, motor vehicle record and background checks will be required.

**Locations**

Ashford Wastewater Treatment Facility  
465 S. County Road 33  
Ashford, Al 36312
